News Release

23 July 2003

Anglo American and Sasol to proceed with the development of Kriel South coal reserves

In June 2000, Anglo American plc and Sasol Limited initiated a study to consider the development of the Kriel South coal reserves in Mpumalanga province, South Africa. An agreement has now been reached and Anglo Coal will establish a new opencast operation on the northern portion of the coalfield and Sasol has been granted access to the southern portion of the Kriel South coalfield, through the expansion of its existing underground operations at Syferfontein Colliery.

Anglo Coal will invest R769 million (US\$96 million) and Sasol R320 million (US\$40 million) in the project. Anglo will produce, for Sasol's consumption, 5 million tons per annum, while a similar production rate will be added to the rate at which Sasol's Syferfontein mine will produce. Together they are expected to yield an estimated 200 million tons of thermal coal for supply to Sasol Synfuels at Secunda, South Africa, over

Production will commence in July 2005.
